

Class 2 Computer Reading

Introduction to Computers

A computer is an electronic machine.

It helps us work, learn, and play.

Computers can solve problems quickly.

People use computers in schools and offices.

Main Parts of a Computer

A computer has many important parts.

The monitor shows pictures and words.

The keyboard is used for typing.

The mouse helps us click and select items.

Input Devices

Input devices help us enter information.

Keyboard and mouse are input devices.

We use them to give instructions to computers.

Input devices make computer work easy.

Output Devices

Output devices show results from computers.

The monitor is an output device.

Speakers play sound and music.

Printers print words and pictures on paper.

Keyboard Keys

A keyboard has different types of keys.

Alphabet keys help us type letters.

Number keys help us type numbers.

Spacebar gives space between words.

Using a Mouse

The mouse controls the pointer on the screen.

We can click, double-click, and drag with a mouse.

The mouse makes computer work faster.
It is easy and fun to use.

The CPU

CPU stands for Central Processing Unit.
It is called the brain of the computer.
The CPU controls all computer activities.
Every computer needs a CPU.

Computer Uses

Computers are used in many places.
Students use computers for learning.
Doctors use computers in hospitals.
People use computers for communication.

Drawing and Painting

Computers can be used for drawing.
Paint programs help children create art.
We can color pictures on the computer.
Drawing on computers is enjoyable.

Playing Educational Games

Educational games help children learn.
Some games teach math and spelling.
Games make learning fun and exciting.
Children should play games for a limited time.

Listening to Music

Computers can play music and rhymes.
Speakers help us hear sounds clearly.
Music can make learning enjoyable.
Many children like listening to songs.

Watching Videos

Computers can show educational videos.
Students watch lessons and cartoons.

Videos help us understand topics better.

Learning with videos is interesting.

Typing Practice

Typing means writing using a keyboard.

Good typing needs practice.

Typing helps us complete work quickly.

Students can learn typing skills easily.

Storage Devices

Computers store information in storage devices.

Hard disks and USB drives store data.

Pictures and files can be saved.

Storage keeps information safe.

Internet Basics

The internet connects computers worldwide.

People use the internet to search information.

Students can learn many things online.

Children should use the internet carefully.

Computer Care

Computers should be kept clean.

Do not eat near computers.

Use computers carefully and gently.

Good care keeps computers safe.

Computer Lab Rules

Students should sit properly in the lab.

Hands should be clean before using computers.

Follow teacher instructions carefully.

Do not touch wires or plugs.

Technology Around Us

Technology helps people in daily life.

Mobile phones and computers are technology tools.

Technology makes communication easy.
People use technology everywhere.

Smart Machines

Computers are smart machines.
They follow instructions quickly.
Smart machines save time and effort.
People use smart machines every day.

Learning with Computers

Computers help students study better.
Teachers use computers in classrooms.
Students learn new skills with computers.
Learning becomes easy and fun.
