

Nursery Math Reading

Counting 1 to 5

One apple.

Two balls.

Three cats.

Four stars.

Five flowers.

Big and Small

The elephant is big.

The ant is small.

Big things take more space.

Small things take less space.

Shapes

A circle is round.

A square has four sides.

A triangle has three sides.

Shapes are everywhere.

Colors and Numbers

One red ball.

Two blue stars.

Three green apples.

Numbers help us count.

Before and After

1 comes before 2.

2 comes after 1.

3 comes after 2.

Numbers are in order.

More and Less

Five apples are more.

One apple is less.

We can compare things.

Math helps us compare.

Tall and Short

The giraffe is tall.

The rabbit is short.

Some things are tall.

Some things are short.

Heavy and Light

The rock is heavy.

The feather is light.

Heavy things are hard to lift.

Light things are easy to lift.

Counting Objects

We can count toys.

We can count pencils.

Counting is fun.

Math is useful every day.

Matching Numbers

1 matches one object.

2 matches two objects.

Numbers help us learn counting.

Matching improves learning.

KG Math Reading

Counting 1 to 20

We can count from 1 to 20.

Counting helps us in daily life.

Numbers are important.

Practice improves counting skills.

Addition

Addition means putting things together.

2 apples plus 1 apple make 3 apples.

Addition increases numbers.

Addition is fun.

Subtraction

Subtraction means taking away.

5 balloons take away 2 balloons leaves 3 balloons.

Subtraction decreases numbers.

We use subtraction every day.

Shapes Around Us

Circles, squares, and triangles are shapes.

Shapes are everywhere around us.

Wheels are circles.

Windows can be squares.

Patterns

Patterns repeat in order.

Red, blue, red, blue is a pattern.

Patterns help us think.

Patterns are fun to learn.

Comparing Numbers

5 is bigger than 3.

2 is smaller than 4.

Numbers can be compared.
Math helps us understand size.

Time

A clock shows time.
Morning comes before evening.
We go to school in the morning.
Time is important.

Money

Money is used to buy things.
Coins and notes are money.
People use money in shops.
Saving money is good.

Measurement

We can measure things.
A ruler measures length.
Some things are long.
Some things are short.

Position Words

The ball is on the table.
The cat is under the chair.
Position words show location.
We use them every day.
