

DIYAA Computer Speaking Curriculum Content (Grade 1 to Grade 5)

This document contains production-ready Computer speaking game content for DIYAA. Speaking levels progress from beginner computer vocabulary to advanced computer recognition, device identification, software understanding, and rapid computer-answer gameplay. PNG assets are required only for image-identification levels.

Grade 1 - Computer Speaking Levels

Level 1 - Computer Vocabulary

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Say the word: Computer	Computer
Say the word: Monitor	Monitor
Say the word: Mouse	Mouse
Say the word: Keyboard	Keyboard
Say the word: CPU	CPU

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 2 - Device Identification

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary

- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Required PNG Asset	Expected Spoken Answer
What device is this?	monitor.png	Monitor
What device is this?	mouse.png	Mouse
What device is this?	keyboard.png	Keyboard
What device is this?	cpu.png	CPU
What device is this?	computer.png	Computer

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 3 - Computer Rules Speaking

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
What should we keep clean before using a computer?	Hands
Should we pull computer wires?	No
Should we sit properly while using computer?	Yes
What should we avoid touching?	Wires
Should we eat near computers?	No

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Grade 2 - Computer Speaking Levels

Level 1 - Parts of Computer

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Which device is used for typing?	Keyboard
Which device moves the pointer?	Mouse
Which device shows pictures?	Monitor
Which part is called the brain of computer?	CPU
Which device gives output?	Monitor

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 2 - Mouse Actions

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Which action opens a file quickly?	Double Click
Which action moves items?	Drag and Drop
Which action selects an item?	Single Click
Which action opens menu options?	Right Click

Which action scrolls the page?	Scroll
--------------------------------	--------

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 3 - Image Identification**Gameplay Flow:**

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Required PNG Asset	Expected Spoken Answer
Identify this computer device.	scanner.png	Scanner
Identify this computer device.	printer.png	Printer
Identify this computer device.	speaker.png	Speaker
Identify this computer device.	mouse.png	Mouse
Identify this computer device.	keyboard.png	Keyboard

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Grade 3 - Computer Speaking Levels

Level 1 - Keyboard Keys

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Which key gives space between words?	Spacebar
Which key deletes letters?	Backspace
Which key moves to next line?	Enter
Which keys are used for typing letters?	Alphabet Keys
Which keys type numbers?	Number Keys

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 2 - Uses of Computer

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Where are computers used for learning?	School
Where are computers used for shopping?	Shops
Where are computers used for treatment?	Hospital
Where are computers used for banking?	Bank

Where are computers used for drawing?	Office
---------------------------------------	--------

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 3 - MS Paint Speaking

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Which tool removes mistakes?	Eraser
Which tool draws lines?	Pencil
Which tool fills colors?	Fill Color
Which tool draws shapes?	Shapes
Which tool paints freely?	Brush

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Grade 4 - Computer Speaking Levels

Level 1 - Input and Output Devices

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Name one input device.	Keyboard
Name one output device.	Monitor
Which device prints documents?	Printer
Which device scans pictures?	Scanner
Which device gives sound?	Speaker

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 2 - Windows Basics

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
What is the main screen called?	Desktop
What bar appears at the bottom of screen?	Taskbar
What small pictures open apps?	Icons
What stores computer files?	Folder

Which button opens the start menu?	Start Button
------------------------------------	--------------

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 3 - Programming Logic

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Which command moves turtle forward?	Forward
Which command turns turtle left?	Left
Which command turns turtle right?	Right
Programming follows what kind of steps?	Step by Step
What do we call solving problems using logic?	Programming

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Grade 5 - Computer Speaking Levels

Level 1 - MS Word and Excel

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Which software is used for documents?	MS Word
Which software uses formulas?	MS Excel
Which formula adds numbers?	SUM
Which formula finds average?	AVERAGE
Which software creates slides?	PowerPoint

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 2 - Cyber Safety

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Should we share passwords online?	No
What type of password should we use?	Strong Password
Should we open unknown links?	No
Who should we ask before downloading files?	Parents

Should we share personal information online?	No
--	----

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 3 - Advanced Computer Speaking

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge
- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
What is used to store data in computer?	Storage
What does RAM help with?	Speed
What is the operating system used in most computers?	Windows
What helps computers connect to internet?	Network
What is used for block programming?	Scratch

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

Level 4 - Fast Computer Challenge

Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

Computer Speaking Focus:

- Device recognition
- Computer vocabulary
- Software knowledge

- Rapid-fire computer questions
- Computer awareness and safety

Prompt / Narration	Expected Spoken Answer
Which key deletes text?	Backspace
Which device controls pointer?	Mouse
Which software creates charts?	MS Excel
Which device prints papers?	Printer
Which software creates presentations?	PowerPoint

DIYAA Computer Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- Rapid-answer gameplay enabled
- Computer vocabulary focus enabled
- correct.mp3 and wrong.mp3 enabled
- Reward stars and lives system enabled

MASTER PNG ASSET LIST REQUIRED

PNG assets are required only for image-identification levels. Add these PNGs into the computer speaking assets folder.

- computer.png
- cpu.png
- keyboard.png
- monitor.png
- mouse.png
- printer.png
- scanner.png
- speaker.png
