- PK-English voice support
- Speech recognition enabled
- correct.mp3 on correct answer
- wrong.mp3 on incorrect answer
- Heart/lives system enabled
- Reward stars and coins enabled
- Beginner to advanced progression maintained

## Level 3 - Image Identification

**Gameplay Flow:**

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

| Prompt / Narration   | Required PNG Asset | Expected Spoken Answer |
|----------------------|--------------------|------------------------|
| What is this?        | clock.png          | Clock                  |
| What animal is this? | horse.png          | Horse                  |
| What place is this?  | school.png         | School                 |

**DIYAA Speaking Rules:**

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- correct.mp3 on correct answer
- wrong.mp3 on incorrect answer
- Heart/lives system enabled
- Reward stars and coins enabled
- Beginner to advanced progression maintained

**Level 4 - Describe the Image****Gameplay Flow:**

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

**Advanced Speaking Features:**

- Microphone listening duration increased.
- Student can speak complete sentences freely.
- Grammar correction AI enabled.
- If student speaks incorrect grammar, game shows corrected sentence.
- AI provides correct pronunciation and proper sentence structure.
- Example:

Student: "I goed school."

Game Feedback: "Correct sentence: I went to school."

| Prompt / Narration     | Required PNG Asset | Expected Spoken Answer                  |
|------------------------|--------------------|-----------------------------------------|
| Describe what you see. | park.png           | Children are playing in the park.       |
| Describe what you see. | classroom.png      | Students are studying in the classroom. |
| Describe what you see. | market.png         | People are shopping in the market.      |

**DIYAA Speaking Rules:**

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- correct.mp3 on correct answer
- wrong.mp3 on incorrect answer
- Heart/lives system enabled
- Reward stars and coins enabled
- Beginner to advanced progression maintained
- Long microphone listening limit
- Grammar correction system enabled

- AI sentence improvement enabled
- Correct sentence feedback displayed

## Level 5 - Sentence Speaking

### Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

### Advanced Speaking Features:

- Microphone listening duration increased.
- Student can speak complete sentences freely.
- Grammar correction AI enabled.
- If student speaks incorrect grammar, game shows corrected sentence.
- AI provides correct pronunciation and proper sentence structure.

• Example:

Student: "I goed school."

Game Feedback: "Correct sentence: I went to school."

| Prompt / Narration                          | Expected Spoken Answer       |
|---------------------------------------------|------------------------------|
| Speak a sentence using the word 'school'.   | I go to school every day.    |
| Speak a sentence using the word 'computer'. | I use a computer to study.   |
| Speak a sentence about your best friend.    | My best friend is very kind. |

### DIYAA Speaking Rules:

- Microphone auto activates
- PK-English voice support
- Speech recognition enabled
- correct.mp3 on correct answer
- wrong.mp3 on incorrect answer
- Heart/lives system enabled
- Reward stars and coins enabled
- Beginner to advanced progression maintained
- Long microphone listening limit
- Grammar correction system enabled
- AI sentence improvement enabled
- Correct sentence feedback displayed

## Level 6 - Story Speaking

### Gameplay Flow:

Narration or image appears → microphone activates → student speaks answer → speech recognition checks pronunciation and correctness → correct.mp3 or wrong.mp3 plays.

### Advanced Speaking Features:

- Microphone listening duration increased.
- Student can speak complete sentences freely.
- Grammar correction AI enabled.
- If student speaks incorrect grammar, game shows corrected sentence.
- AI provides correct pronunciation and proper sentence structure.
- Example:

Student: "I goed school."

Game Feedback: "Correct sentence: I went to school."

| Prompt / Narration                        | Expected Spoken Answer                             |
